GRAND JURY REPORTS
AND FINALLY DISMISSEDWas in Session 23 Days, Returned
44 True Bills, Thousands Due
County in Delinquent Taxes.

The Potter county grand jury for the present term of the District court completed its work yesterday afternoon and filed its final report with the request to be dismissed. The several recommendations of the body, as given in their report published in full below, are worthy of some study and consideration. Especially so the finding that Potter county has not interest any collecting of delinquent taxes since its organization as a county. The recommendation that supplies for the county be purchased at the lowest bid is a very timely one. In urging that itemized statements of all county expenditures be published at least annually in some newspaper of the county, the jury has met a "long felt want."

The Report:
Amarillo, May 28, 1914.
To Hon. James S. Browning,
Judge 17th District Court,
Amarillo, Texas.

Dear Sir:—
We, the Grand Jury for the March Term A. D. 1914 of the District Court for Potter County, Texas, beg to submit the following final report.

We have been in session 23 days and have obeyed your instructions as far as possible. We have examined 24 witnesses and found 44 true bills, 23 of which are for felonies and 21 for misdemeanors. We think it appropriate to say here that a large portion of the felony bills have returned were returned against three individuals, there being only 23 individuals indicted upon felony charges by our body. We have labored diligently with the assistance of the county and district attorneys to ascertain all violations of law. We find the most serious of these along with other crimes has been reduced to a minimum. The jail occupies less than one-half of its capacity, and we are compelled to keep it open for the purpose of the holding in charge of the enforcement of the law.

We have examined the Court house and jail and respectfully recommend that the roof of the court house be repaired so that it will not leak. We find the water has run through into several of the offices in one instance seriously damaging some stenographic work in the office in the stenographers' office. This leaking condition renders the walls of the different offices unhealthful, and will in the course of time damage the building.

We recommend fire escapes for the jury room on the third floor; rope ladders securely anchored to each window would rust but little and would be better than to have no means of escape in case of an accident.

The Justice of the Peace's office in the North West corner of the basement badly needs plastering on the North side and the office needs new documents filed. Steps on East of building need repairing.

As to the jail building we find the plumbing in bad shape—water running from the upper room down the pipe and on the walls of the lower floor, rendering lower rooms unhealthful and apparently unsanitary. The toilet room in northwest corner room of second floor needs to be repaired with lumber and not with a plank. The second door to this room need to be filled with mortar. There are some broken window sashes that need attention.

We find all the rooms of the court house and jail clean and sanitary unless there is a dampness from the leaky condition of roof and the jail on account of plumbing.

We questioned the prisoners as to their food and treatment—they all said they were well treated and quite satisfied with their food.

We find all County officers courteous and anxious to give any information pertaining to their respective offices.

We find several thousand dollars due the county on delinquent taxes but no lands have been sold for taxes since the organization of the county. We recommend that the Commissioner's Court abstract these delinquent taxes of lands and order them sold in accordance with law that they may bear their just proportion of county expense.

We find the roads and bridges of the county for the past year to have cost approximately eight thousand dollars. Of this amount large sums have been paid out for groceries and lumber. We recommend these supplies such as groceries, lumber and hardware for roads, and also for county farm, be purchased at the lowest bid.

We feel as the tax payers of the county bear the burden of taxes, it is best for them to know each item for which their money is expended. It is interesting for them to know the exact cost of running the county farm, costs of roads and bridges, court costs, civil and criminal amounts paid different officers of the county, expenses of jail and all other expenses, therefore we urge an itemized statement of all moneys received and paid out by the different county officers be made and published annually in one of the newspapers of the county.

We have examined the buildings of the Independent School District. We recommend fire escapes for the Johnson Street School Building, also concrete partitions instead of wooden in the engine room of said building also that the toilet doors and screens of outside of building be removed. We found the Glenwood School building in bad condition—roof needs repairing, all rooms need papering and floors need cleaning. All other school buildings in good condition—especially buildings on North and East Side, and New Public School Building on Polk Street are in fine shape, with the one exception of the heating arrangement in the basement of said new public

school building. We visited the county farm—found there six paupers and five convicts—all seem in fair health and are doing as well as could be expected under the conditions. We examined all the buildings the living rooms, kitchen, and beds and bedding—commend the management for having everything clean and sanitary.

After interrogating inmates before treatment they receive is good and food wholesome and sufficient. We examined the post house and think it not in keeping with the other buildings on the premises. It is not sufficiently lighted or ventilated. We respectfully recommend that there should be a better post house, at least two rooms, weather-boarded and fixed up warm and comfortable.

The farm house and barns are well cared for. Crop prospects good. The general appearance of farm is first class and Potter county can well be proud of its property.

In conclusion we wish to thank your Honor for your valuable instructions and courtesy shown. We wish to express our gratitude to the District and County attorneys, the Sheriff's Department and all county officers for their efficient assistance which has been so freely extended us throughout our deliberations. We now request that we be finally discharged.

Respectfully submitted,
CHAR. K. CHANSLOR,
Foreman of the Grand Jury.

ORE ASSAY OF LOCAL CO.
CAUSES BIG SENSATION

ORE ASSAY LOCAL CO.—24
Combined Gold and Silver Per Ton
Valued at \$22.95—Stock Taken
Off Market.

The stockholders of the Buckeye Mining & Development Co., who are nearly all local citizens, at a meeting last night decided to discontinue the further sale of stock. This on account of the fact that returns from an assay just completed shows that the ore which they are now taking out of their mining property bears gold and silver to the amount of \$22.95 per ton.

The holdings of the Co. are located in the Ortiz Mountains, New Mexico, and were originally the property of G. A. Gosser, of this city, who acquired the Buckeye company in order to secure the necessary funds for the development of the mine. For some years operations have been carried on with more or less success, stopping entirely at intervals for months. Mr. Gosser never lost faith in the proposition, being convinced that some time or other the paying vein would be disclosed.

A few weeks ago new life was put into the work at the mines, some expert miners having been secured from Colorado, and almost from the first day the men commenced to work favorable reports were received by the local parties in interest. A few days ago some samples of the ore were sent here which were later analyzed at Denver and show an assay as above stated. At last night's meeting the stockholders of the company raised necessary funds to push the work at the mines and to make necessary arrangements for handling of the product.

In connection with the foregoing account it is perhaps apropos to state that many years ago an uncle of Mr. Gosser discovered a pocket of practically pure gold in the same mine, not being worked, which netted some \$75,000.

Personals

Mrs. M. L. Arington of Goodnight is a guest at the home of Mr. and Mrs. W. A. Asaw, 191 Polk street.

Mr. J. E. Cunningham and Miss Elizabeth Cunningham have returned to their home from Fort Worth and El Paso, Texas, where they have been visiting the past few months.

Miss Nina Cunningham, who has been attending Texas Fairmount seminary at Weatherford the past year, returned home yesterday. Her sister, Miss Norma, who has also attended the same school, will visit a Snyder before her return home.

The trendy auto dealer of Memphis was a business visitor in Amarillo yesterday.

Lindsay Nunn is on a business trip down the Pecos Valley in the interest of the Nunn Electric Co.

Mrs. Rosa Van Horn, of Clarendon visited in the city yesterday.

Thos. O'Loughlin of Miami was among our business visitors yesterday.

John Rice and wife of Tulsa spent yesterday in the metropolis.

A U. Lichtwood of Clarendon was one of the many business visitors in the city yesterday.

J. R. Henderson and wife of Weatherford spent yesterday with friends in Amarillo.

Henry McMillan, of Clarendon, attended in the metropolis Wednesday and Thursday morning.

W. D. Jordan of Hoover was a visitor here yesterday.

Geo. St. Arnett of Lybbeck spent part of yesterday in the city on business.

Clyde Baird of Canyon was notified among our visitors yesterday.

Mr. and Mrs. W. H. Norwell, of Memphis, spent Thursday among Amarillo friends.

Joe Cartlidge, J. H. Adams and Mrs. W. H. Smith, all of Memphis, were noticed among the metropolis visitors Thursday morning.

C. H. Tipps, of Canadian, transacted business in the city Thursday morning.

Worse Than Quoted.

"I don't see," said Mrs. Pozzola, "why it is said of a homely woman that her face would 'stop a clock.' I know women whose faces would cause a clock to run itself to death from sheer fright."

COMMISSION OPENS BIDS
FOR LIGHTING ET CETERAOwing to Absence of Commissioner
Bivens a Contracts Were Let
For Supplies.

At a special meeting of the City Commission held last night, at which Commissioner Bivens was absent, bids were opened on drugs, building of sidewalks and curbs and street lighting.

Several of the drug firms of the city entered in competitive bidding for supplying the city health department with drugs, chemicals, prescriptions and pharmaceuticals.

There was considerable variation in the bids and the Commission deferred letting of the contract until the city health officer is consulted with reference to the merits of the bids.

Williaming & Mullen and W. C. Reeves were the competitive bidders for the city concrete work. The former, who have heretofore held the city contract for a number of years, were the lowest bidders.

For street lighting the City Water & Light Co. was the only bidder, their bid being accompanied with a certified check for \$500 as a guarantee for faithful carrying out of the contract in case it is awarded to them. The Amarillo Gas Co. having failed to make a bid, the Mayor ruled that its opportunity for bidding was lost.

A contract was presented and read by City Attorney Dooley in which the city and the firm of Ledford & Co. enter into final agreement for the erection of the new fire station. The bidders have till Sept. 15th to complete the building. The contract will be signed today.

A communication from G. W. Baker with reference to a railroad crossing was referred to Manager Hardin to bring up at a future regular session of the Commission.

An ordinance defining nuisances and regulations against them was taken up for final correction. It will be passed to its final reading at an early session.

An ordinance regulating the operation of autos, cycles, cabs, motor-cycles and other vehicles within the city limits and numbering of same and providing for penalties, was passed to first reading at the meeting, after which the Commission adjourned to meet again tonight.

HERBERT LEWIS VISITS
WITH FORMER FRIENDS

Herbert Lewis and wife are in the city as the guests of Dr. and Mrs. F. W. Dodson. Mr. Lewis resided in Amarillo back in 1906-7, and is well remembered by many old friends here. He is now engaged in special edition work in connection with organized labor publications, which he finds pleasant and remunerative. He expects to be in Amarillo for some time.

HEREFORD WHITE FACES
VS. CUNNINGHAM ANGELS

This afternoon the Hereford White faces will oppose the Cunningham Angels in a "five" battle, which is to be fought on the Glenwood park grounds. Hereford has sent in its advance heraldry of expected scalp-taking, but the locals are determined that they will maintain their supremacy over the visitors which they demonstrated in last year's contests.

The Angels will line up as follows:
Adams, first base; Williaming, second base; Baker, third base; Hodges, short stop; Carl, 1-B field; Harris, center field; Worth, right field.

Batteries—Holman, Wehler and Cordington.

J. E. NUNN AND PARTY
REPORT ALL WELL.

Mrs. J. E. Nunn received a wireless message from J. E. Nunn and party aboard the steamship Bismarck yesterday, stating that they had reached the Atlantic Ocean and none of them had suffered from seasickness yet, also that Dr. Nunn was much better in health.

In District Court.

Motion on the part of defendant (a new trial) in the case of Carrie Spagel vs. James Spagel, was granted by the District court yesterday.

In the case of the Pecos Gas Engine Co. vs. Hickox-Wyman Engine Corporation et al., the court decided in favor of plaintiff and granted judgment in the amount of \$24,266.

In Henrietta S. George vs. J. E. George, the court granted a divorce to plaintiff as prayed for.

Also in the cases of Della May McNett vs. J. A. McNett and Elizabeth C. Small vs. J. C. Small, divorces were granted.

In O. K. Gilvin Land Co. vs. Howard Trigg, motion for new trial by plaintiff was granted.

In the case of Mrs. Anna Hynderson vs. Amarillo Street Railway Co. the motion for new trial by plaintiff was overruled.

Board of Equalization.

The Potter County Commissioners' Court, in session this week, expects to convene as a board of equalization this morning.

Marriage License.

County Clerk Sam Mottow yesterday issued a marriage license to Walter James and Miss Lizzie Peterson.

Fine Wheat Samples.

Samples of wheat were exhibited in the Amarillo National Bank yesterday for the fair of Mrs. W. A. Maxwell near Hartley. The wheat is of the Indiana variety, a new kind which has only been introduced in the Panhandle, and while still very green and immature the heads are now five inches in length. It is thought the field will easily yield thirty bushels per acre.

Japan's Handicap Last Year.

Japan is such a mountainous country that it has to resort to intensive cultivation in order to raise enough rice. Last year it used fertilizers to the value of more than \$104,000,000.

Every maker tries his corset the best. The fact is that every maker really does make the best corset he can. The relative merit of all can be determined only by comparison. It is by comparison that we finally decided to sell and recommend the Frolaset front laced Corsets. We don't know of another make that is as good.

FROLASET, Front Laced Corsets

We're sure that some day nine out of ten will wear a Frolaset. A good thing must, sooner or later, win great favor with all. One would be foolish to wear an ordinary corset when, at the same price, she may buy one that possesses features the Frolaset front laced corset. We don't know of fashion.

What Corset Do You Wear?

Even if you think you are wearing the best corset made act on our suggestion and try Frolaset. There may be something in this make that will appeal to you. \$5.00 and \$3.50 are the prices.

Just received, the new patterns for July --- this season's new models, 10c-15c, no higher; no others like them.

Fashion Book, 25c; out of town, 35c by mail.
